LinkedIn: <https://www.linkedin.com/in/william-conner-barry-7755a977/>

PROFESSIONAL SUMMARY

Senior analytics leader with 8+ years driving enterprise-scale data and AI strategies. Primary inventor of two patented optimization systems (US 11,315,379 & 11,688,221) deployed across 6,000+ retail locations, delivering \$150M in annual labor savings. Expert at translating complex systems into executive-level business outcomes. Seeking a leadership role where I can architect analytics solutions while leading cross-functional teams to deliver measurable wins.

CORE COMPETENCIES

Leadership & Strategy: Analytics roadmap ownership • Executive stakeholder management • Cross-functional team leadership • Patent strategy • Budget management

Data & BI Platforms: SQL • Power BI (DAX, Power Query) • Snowflake • dbt • Data modeling • ETL design • SSRS • Python • Alteryx

AI & Optimization: PyTorch • LLM integration (Gemini/OpenAI) • RAG • Probability modeling • Real-time decision systems • API integration

PROFESSIONAL EXPERIENCE

Independent Consultant | Senior Analytics & AI Strategy Consultant | *November 2024 – Present*

- Built hybrid AI systems combining local PyTorch models with cloud LLM APIs (Gemini/OpenAI) for real-time intelligent data retrieval and decision support.
- Automated multi-hour Excel reporting workflows using Python, reducing manual effort by 20+ hours monthly and improving data accuracy for small business clients.
- Delivered executive BI dashboards that identified operational inefficiencies, accelerating client decision-making.

FARO Technologies | Financial Systems Business Analyst | *October 2021 - November 2024*

- Architected and governed enterprise Power BI ecosystem supporting global sales, backlog, and revenue reporting. Maintained 99%+ accuracy on critical financial metrics used by executive leadership.
- Helped orchestrate the data lifecycle from data extraction and transformation to executive visualization, partnering with finance and operations leaders to define KPIs and automate recurring reports.
- Delivered actionable insights across international teams by translating complex datasets into clear business narratives.

G4S | Analytics Manager | *October 2019 - October 2021*

- Led the full analytics roadmap, BI strategy, and delivery for enterprise cash management operations. Led cross-functional analytics initiatives and directed report developers on BI/report implementation.
- Served as lead inventor (US Patent 11,315,379) of proprietary SQL-based optimization system deployed to 6,000+ retail locations, generating \$150M in annual labor savings.
- Presented strategic insights to C-level executives and drove cross-functional alignment on high-priority initiatives, mentoring analysts on technical delivery and business impact.
- Collaborated with hardware vendors to redefine device specifications and configurations based on optimization data, ensuring field-deployed technology met inventory targets.

G4S | Senior Business Analyst | *August 2018 - September 2019*

- Developed core patented optimization algorithms using historical patterns and risk-based percentiles to balance inventory levels dynamically.

- Led enterprise implementation of Power BI Report Server, including architecture design, developer oversight, and comprehensive QA.
- Served as de facto product owner for automated change-ordering system, managing lifecycle from concept to deployment and reallocating 30 employees to higher-impact work.

G4S | Business Analyst | May 2017 - August 2018

- Identified and captured \$500M in trapped liquidity by optimizing external vault cash-processing workflows, significantly improving overnight capital availability.
- Engineered automated inventory management and financial reconciliation systems for the company's largest national retail accounts.

Previous roles: Cash360 Analyst at G4S (October 2016 – May 2017) | Analyst at Troon Business Loans (May 2015 – October 2016) | Securities Billing Specialist at Citibank (October 2014 – May 2015)

EDUCATION

Master of Business Administration (MBA) | University of Florida

Cohort President

Bachelor of Science in Finance | University of Central Florida

PATENTS

US Patent 11,315,379 B1 - Cash-Till Optimization Algorithm (Usage & Percentile-Based)

US Patent 11,688,221 - Closed-Loop Inventory Optimization System (Deposit Cassette)

TECHNICAL SKILLS

AI/ML: PyTorch • NanoGPT • RAG • Gemini API • LLM Quantization • Neuro-Symbolic AI

Data Engineering: dbt • Snowflake • SQL • ETL • Data Modeling • Snowflake Cortex

Analytics: Power BI (DAX, Power Query M) • SSRS • Financial Forecasting • Operational Analysis • Alteryx • Data analysis
